I'm tired of people always asking me
"What's happening? What's going on?"
They try to see what's in my head
Why can't they leave me alone? Yeah
Oh, habit
Sometimes I like to stay all by myself
Quiet and relaxed
But the phone, the phone
Always seems to ring off the hook, yeah

(It's not strange to me) It's not strange
(That I act this way) That I act this way
(It's not cool you see)
(Because I'm no fool)
('Cause all they want) All they want
(Is to come into my world)
Into my world, yeah, yeah

Angry
Sometimes I get so upset
When I see what's not meant to be
People gettin' hurt over silly things, yeah
Not me
I don't want to get involved
Into problems that I can't solve (That I can't solve)
Keep them away from me, yeah

It's not
(It's not strange to me)
(That I act this way) I act this way
(It's not cool you see)
(Because I'm no fool)
('Cause all they want) All they want
(Is to come into my world)
Into my world, yeah, yeah

Friends
They always seem to care
We don't have enough of love
It's impossible to keep the love
When you're minding my business
My business (Business)
Minding my business
Minding my business (Business)
It's not strange to me

(Business)
(That I act this way) I act this way
(It's not cool you see)
(Business)
(Because I'm no fool) Woah
('Cause all they want)

(Business) Oh, my business
(Is to come into my world)
(Business) My business, my business
(It's not strange to me)
(That I act this way) Not me, baby
(It's not cool you see)
(Business)
(Because I'm no fool) It's my business
(Business)
(Is to come into my world) It's my business
