GWAR

Cast  
Down  
Lost  
Underground  
Scream without sound  
Into darkness profound

We see you burning  
And we can't look away  
All we created  
Erupts into flames  
How could we know  
How far you would fall  
Bewitched by the shadows  
That are cast on the wall?  
Cast  
Down  
Scream without sound

Clinging to darkness  
Deep in the cave  
Those who were soldiers  
Now shall be slaves  
Worship the shadows  
Cast by the fire  
Gorgon Hydra Chimera dire...

We see you burning  
And we can't look away  
All we created  
Erupts into flames  
How could we know  
How far you would fall  
Bewitched by the shadows  
That are cast on the wall?  
Cast  
Down  
Into darkness profound

All you see  
Reality  
Auroch scrawled  
On the wall  
Ochre hands  
Torches brand  
Where embers die  
Shadows lie

Holding on tighter  
To the illusion  
Kill it, and eat it, and  
Damn the intrusion  
Back down the hole  
Of blackest desire  
Worship the shadows  
Cast by the fire

We see you burning  
And we can't look away  
All we created  
Erupts into flames  
How could we know  
How far you would fall  
Bewitched by the shadows  
Cast on the wall?

Down  
Into darkness profound
