

## Lords and Masters

GWAR

As master of this mudball, I feed the fire high  
With corpses of my victims, the beacon leaps alight!  
A vision of the cosmos of a planet wracked in pain  
Far off sensors detect chaos billions more are slain  
We have thrown a party  
The guests are set aflame  
Create a blinding beacon  
One that shall proclaim:  
GWAR lives! GWAR rules!  
We scream towards the stars  
We have counted all of them and claim them now as ours

Lords and masters  
Lords and masters  
Lords and masters  
Lords and masters of all we survey

The master sent us here  
As penance for our crimes  
I do believe we kicked his ass,  
I do believe its time...  
Can't you see me from the void?  
Can't you feel my hate?  
As my brothers rape and kill the cripples I create

Lords and masters  
Lords and masters  
Lords and masters  
Lords and masters of all we survey

Many have mocked us, many have died  
Don't need to succeed  
So we don't try  
Destined to godhood to many's dismay  
Just lords and masters of all we survey

We reject our sentence, it's far too cruel a fate  
I'll lure you in and take your ship and fly off with me mates  
GWAR lives! GWAR rules!  
We scream towards the stars  
Return to the glory of Alpha Centari  
We're sick of playing bars!  
Their innards bloat outwards just like swollen slugs  
We inject their women and rape all their drugs  
Embracing this hatred and all it entails  
A bulging and bloated harvest of entrails

Many have mocked us, many have died  
Don't need to succeed  
So we don't try  
Destined to godhood to many's dismay  
Just lords and masters of all we survey

Lords and masters  
Lords and masters  
Lords and masters  
Lords and masters of all we survey

It couldn't be more clear, its not fucking braille  
A bloated and bleeding and bloody harvest of entrails  
Squirming from my dick-slit, they look like shell-less snails!  
Compared to my crimes, Hitler's pale!  
Compared to my crimes  
Compared to my crimes  
Hitler's pale...
