

# Storm is Coming

GWAR

Storm, storm is coming  
Storm, storm is coming

The death camps are growing  
Like mushrooms through dew  
But this time the murdered  
Are not only Jews  
We kill every species  
Not just one or two

You'll go in the pit  
And then you'll be reborn  
You won't feel the cold  
And you'll never get warm  
And then you will take  
Your place in the storm

Because storm, storm is coming  
Storm, storm is coming

You may wonder  
Why I create these creatures  
Big on stench  
But short on redeeming features  
I'll tell you if you meet me  
Under the bleachers

Syn, he is broken  
The master is vanquished  
We've got a Skumship  
No need to be banished  
The cosmo's a buffet  
And I'm fucking famished

I need an army to lead into battle  
And rape the elderly, drive them like cattle  
We're killing you to come along  
Well, our undead host is now six billion strong

Because storm, storm is coming  
Storm, storm is coming  
Storm, storm is coming  
Storm, storm is coming

There's a storm coming  
And you're gonna fucking die  
Ascend to space, the Skumdog ships  
Infested with the dead

Commander Adama is now on the bridge  
He has no fucking head  
Black void, Sorgo, destroyer  
Ruined hulks lay burnt and broken  
These are the war dogs of Nebulon  
These dogs created for war

Storm, storm, storm, storm

Storm is coming, storm is coming  
Storm, storm, storm, storm  
Storm is coming, storm is coming

Storm, storm, storm, storm  
Storm is coming, storm is coming  
Storm, storm, storm, storm  
Storm is coming, storm is coming

Black void, overload  
Crest the solar filth  
Bringing fire from all quarters  
Release the dogs of Nebulon

Array the host, the Nekro-Swarm  
Armored, gleaming humanoid  
The chittering mass fills our sensor screen  
Drive them back to the void

Slaughter, the cosmos scrubbed clean  
Power like none that I'd seen  
GWAR, destroyers simply super  
The usurped becomes your supper

Battle madness, always spilling  
Crackling chaos, always killing  
Zombie troopers rape the old  
Corpses float in zero G

We are the Scumdog Soldiers  
This is how we make war  
Not happy just slaughtering species  
The planet is clove to the core

Sometimes these hideous memories  
Bring tears of joy to my scabby face  
We are the Scumdogs and this is our war  
'Til we burn the last world and kill the last race

Last race
