

Surf of Syn

GWAR

Unsheathe the sword, call the death squad
Let loose the dogs, make me your God
Curse the name, stretch forth thy rod
Get on your knees, make me your God

Unleash the nuns, surf to Earth
Enslave the man, make me your God
Suffer the plague, surf the sky
Declare unclean, my God machine
Number the beasts, sound the horn
Suffer the wrath, bring me your first born
