

## Reminders

Gwen Stefani

Look at me surrounded by the sunshine  
All the leaves are fallin' down just in time  
Plant a seed, a garden for a new life  
Wait for rain to come

A little time I think that we deserve that  
These days are passin' by so fast  
Drink it slow and maybe I can make it last  
I'll save you some

Can I stay here underneath your shade?  
Oh, when I feel afraid  
I just need a few reminders  
Sometimes, I forget it slips away  
But nothing's really changed  
I just need a few reminders  
Oh, we can watch our garden grow  
Oh, I just need a few reminders

If you see me actin' in a strange way  
I tried to love before you came  
And now you're dealin' with the damage done  
Are you strong enough?

Sometimes, I flashback into those days  
Make it go away  
I just need a few reminders  
Wash away these feelings and these stains  
Hold me as I pray  
I just need a few reminders  
Oh, we can watch our garden grow  
Oh, I just need a few reminders  
Oh, we can watch our garden grow  
Oh, I just need a few reminders

Give me your peace  
I'm gonna dig down deep  
And bury those memories  
So, under the soil  
Going to let perfect love grow  
On this road to Jericho  
Our love is a miracle

Look at me surrounded by the sunshine  
All the leaves are fallin' down just in time  
Plant a seed, a garden for a new life  
Wait for rain to come
