000 precious, precious to me
(Precious precious to me...)

Precious, precious
Precious, precious
Oh precious, precious
Precious, precious to me

I have a lot of thoughts day and night
They are the same worries
Deep at night, my head is busy

I can't sleep, so I toss and turn again
Am I the only one like this?
At the middle of the night, I'm awake

In my dreams
I'm lying in a white sand
I look at the light in the sky
It's surprisingly dazzling, so I close my eyes

Close to the little world
I hear melodies (in my head)
It's like a heaven's song to me
I wouldn't know if I can find it
Until I get out of my blanket
Look forward to it, precious, precious to me

Shall we take a cool picture?
When the mood changes
I feel I had a different mindset

I want to focus on something
In old memories (yeah)
Some thoughts grow ooh

You know what to do
When I'm feeling down, down
Don't know what I'd do
If you weren't around, round
What about catching the flying petals?

What about throwing a coin in Roma?

In my dreams
I'm lying in a white sand
I look at the light in the sky
It's surprisingly dazzling, so I close my eyes

Close to the little world
I hear melodies (in my head)
It's like a heaven's song to me
I wouldn't know if I can find it
Until I get out of my blanket
The thing I need

You know what to do
When I'm feeling down, down
Don't know what I'd do
If you weren't around, round
What about catching the flying petals?
What about throwing a coin in Roma?

Jack took the beanstalk
The wishes written on a note
I'll make sure to read them
Before I wake up in my dreams
Ooh-ooh (woo... uh oh...)
Precious, precious to me

Close to the little world
I hear melodies (in my head)
It's like a heaven's song to me
(Heaven's, heaven's to me...)
I wouldn't know if I can find it
Until I get out of my blanket
Look forward to it, precious, precious to me
(Precious precious to me...)

Precious, precious
Precious, precious
Oh precious, precious
Precious, precious to me
