(Flip the music)

It's like something something doing me bad o, bad o, bae yeah  
Are you looking looking for me, well bye, o yeah

It's like I'm walking far away to you  
Baby, don't try me  
Come closer, let me do you this  
Big booty bad girl, what you saying now?  
The way you do me so  
Don't call me, bye bye  
I be needing my peace o, ooo  
Big booty bad girl, what you saying now?

It's like there's something running down down down below  
When you do me like this  
And I really wanna say nice things, just go shut your door  
Oh, you, oh, you know why we're here  
It's till we go inside that grave

I will come through  
I will come running riding witchu  
And you know like this, oo aaa  
And if you tell me your wishes

And you know like this, oo aaa
