

## Dagger Thru My Heart

Gyptian

Sending dagger through my heart  
Girl and I still remain loving you  
Rescue you in the light or in the dark  
Girl there's so much confident I have in you

Like in finding other reasons  
No need to search for comparison  
Cause your the only one have the keys to my heart  
Baby I'll fight if I have to  
Cause I never wanna lose you  
This battle is won before it even begone  
Baby don't let dem tell you  
That am not the man for you  
They jealous because they don't even have a start

Sending dagger through my heart  
Girl and I still remain loving you  
Rescue you in the light or in the dark  
Girl there's so much confident I have in you

If I try to run away  
I got to come back with a no happy love  
I got to get new experience  
But I don't need nothing else  
If your not by my side  
Stomping thing for a while girl  
I know you smart, you smart  
And your beautiful inside

Sending dagger through my heart  
Girl and I still remain loving you  
Rescue you in the light or in the dark  
Girl there's so much confident I have in you

Sending dagger through my heart  
Girl and I still remain loving you  
Rescue you in the light or in the dark  
Girl there's so much confident I have in you
