

Good Girls

Gyptian

And we are there, we meet a sexy girl
As you reach, a straight forward girl
cause I make her body wet me right there, yeah
She say she want more, she say she wanna leave
She say she wont stay cause every time
She never saw me coming one time
When a master of love and she run till buzz
And I capture her soul and her mind
When I pull her to the dance floor, give it to her hardcore
Dancing with her private prime
I cant believe shes a victim to a bad boy
And run the streets with a grown mind
Good girls only want them a bad boys
Good girls only want them a bad boys
Good girls only want them a bad boys
They want a bad boy, a bad boy
Them only look but no, they no innocent
anyway you want it, me, I do that

Oh you go, I go, anywhere we go, girl, youre in control

When a master of love and she run till buzz
And I capture her soul and her mind
