

## Fire Away

Gyroscope

So fire away.. just fire away .. so anyway, so fire away.  
How deep can i just cut away? until i hit something of importance?.. would you feel it anyway?  
What doesn't kill me leaves me cold enough to shape and shave a way this frozen heart.. would i need it anyway?  
If only you were me and i was someone who could relay this back to us.  
So fire away.. just fire away .. so anyway, so fire away.  
Just fire away.
