

**O.K.**

**Gyroscope**

You know that window in your basement  
I used to sleep outside it  
Now im inside hiding from you....oh  
If you wake up in the morning  
I haven't done my job right  
Not from lack of trying, its just love  
Darling i will set this straight, tomorrow's a new day  
O.K, O.K.

Didn't wake up in the morning  
I must have done my job right  
Thanks to careful planning and some luck  
Fell asleep beneath your bed - been under there for  
days  
O.K, O.K.

You're one.....just one step in front of me

I bet that it wont make the evening news  
Girl im stalking you in your sleep  
Darling i have set you straight 100 times today  
O.K, O.K.

You're one.....just one step in front of me  
I just met my new replacement  
He's called me 13 times today  
Say's if it breathes ill entertain it  
Make it stay.....make its day

What goes around comes around my darling, my darling  
girl  
What goes around comes around my darling.....my darling  
girl

You're one.....just one step in front of me  
You'll get.....you'll get nothing out of me  
I just met my new replacement  
He's called me 13 times today  
Say's if it breathes ill entertain it  
Yes if it breeds i guess ill take its place  
Make it stay

Better hope that in the morning  
That you don't find this creepy  
'Cause now im inside sleeping next to you
