

These Days

Gyroscope

Hate to say it but I've seen that face before.
Exact whereabouts? I'm not so sure.
I'll figure out your name come morning,
But your scent is something I should know.

...I'm not that far away.
Take control before things get away.
I'm sleeping while the sun is dawning.. it will never
ever, ever know.

Take it.
Won't make it.
I've fallen asleep at the wheel.

If I had left in time we wouldn't be behind, but be
careful what you wish for.
Stay here while I check her pulse - it could be someone
else!
Be careful... Oh be careful...

I'd figure out your name by morning.
Still your scent is one thing I should know.
I'm sleeping while the sun is dawning.. it will never
ever, ever, ever know.

...I'm not that far away.
Take control before things get away.
I've fallen asleep at the wheel.

If I'd have left in time we wouldn't be behind, but be
careful what you wish for.
Stay here while I check her pulse - it could be someone
else!
Be careful... Oh be careful...

I've figured your name out by morning.
I'm sleeping while the sun is dawning.

Take it. (take the turn)
Won't make it. (and watch it burn)
Oh to watch you burn... oh to watch you burn.

I've figured out your name by morning.
I'm sleeping while the sun is dawning.

I said that if I'd have left in timewe wouldn't be left
behind, but be careful what you wish for.
Stay here while I check her pulse - it could be someone
else!
Be careful... Oh be careful...

Take it.
Won't make it.
I've fallen asleep at the wheel.
