(həd) p.e.

My niggaz in the whitehouse
We got the Fascists on the run
My niggaz in the whitehouse
Rednecks hide your guns
My niggaz in the whitehouse
The revolution has begun
My niggaz in the whitehouse
Welcome to the future
Don't be such a sore loser

Black in the whitehouse See the color of change Things will never be the same Let the middle class reign

Now anything can happen When a slave becomes the master Your hierarchy is shattered forever No turning back now

Welcome to you future Say goodbye to the past

Black in the whitehouse We the people have spoken The system is badly broken We will never give up

The corporate control is dyin
The cointelpro is lyin
What you're sellin - We're not buyin
The truth is rising!

Welcome to the future don't be such a sore loser!
