

Adrenaline

H.E.A.T

I feel the air, I need the rush of falling
Anywhere, come on let me go
Fly away, fly away
In the morning sun I'm left alone
Fly away, fly away
I throw myself into the great unknown
Hello, hello, I need to let you know
The way, the way I need to go
To go where no-one's been before
My adrenaline-drenaline - burning like a medicine medicine
My adrenaline-drenaline - burning like a fire (fire)
Falling down, falling fast in darkness
Paralyzed, come on let me go
Fly away, fly away
Nothing else will give me peace of mind
Fly away, fly away
Address the nation we are unified
Hello, hello, I need to let you know
The way, the way I need to go
To go where no-one's been before
My adrenaline-drenaline - burning like a medicine medicine
My adrenaline-drenaline - burning like a fire (fire)
My adrenaline-drenaline - burning like a medicine medicine
My adrenaline-drenaline - burning like a fire (fire)
My adrenaline-drenaline - burning like a medicine medicine
My adrenaline-drenaline - burning like a fire (fire)
My adrenaline-drenaline - burning like a medicine medicine
My adrenaline-drenaline - burning like a fire (fire)
Let the fire burn
Let the fire burn
