# Dangerous Ground

**H.E.A.T**

Out in the wasteland, out in the dust
Running free, we're dangerous

Spitting fire, loud and mean
Fully erected a fast machine
Ready to blast all ready to go
Heading for the danger zone

Too fast – bound to crash and burn
Too hot – point of no return
No fear left inside of me

Running on dangerous, dangerous ground
About to cross the red line
Dangerous, dangerous ground
Here I am, I'm taking you down

Hyper-active steel on steel
I'm supersonic I'm going to be
Running wild no stopping me
Because I'll never run out of my adrenaline

What's good to me, is bad for you
Come feed the fire, come feel defeat
I'll take you down this burning street

Too fast – bound to crash and burn
Too hot – point of no return
No fear left inside of me

Running on dangerous, dangerous ground
About to cross the red line
Dangerous, dangerous ground
We live to ride
Running on dangerous, dangerous ground
About to cross the red line
Dangerous, dangerous ground
Here I am, I'm taking you down

Too fast – bound to crash and burn
Too close – live to risk it all
No fear left inside of me

Running on dangerous, dangerous ground
About to cross the red line
Dangerous, dangerous ground
We live to ride
Running on dangerous, dangerous ground
About to cross the red line
Dangerous, dangerous ground
Here I am, I'm taking you down

I'm taking you down
