

Disaster

H.E.A.T

Disaster faster...
Highway, my way...

Raise your voices, make them loud
Turn your head to the screaming sound
Like a moth fly into the flame
True disaster will speak your name

It ain't the ordinary alibi
With all our might we're gonna
Cross the line

Heading for disaster faster
Than the speed of light
Riding on the highway, my way
Knowing it is right
Heading for disaster faster
Than the speed of light
Riding on the highway, my way
Knowing it is right
Heading for disaster

Stand united bound by fear
In the rabbit hole you hold so dear
Rags to riches to any price
Tell me, tell me the cost of lies

It ain't your ordinary alibi
With all our might we're gonna
Cross the line

Heading for disaster faster
Than the speed of light
Riding on the highway, my way
Knowing it is right
Heading for disaster faster
Than the speed of light
Riding on the highway, my way
Knowing it is right
Heading for disaster

It's like a dream in a fever
Like a bullet train
You gotta see it to believe it
Gotta go insane...

Heading for disaster faster
Than the speed of light
Riding on the highway, my way
Knowing it is right
Heading for disaster faster
Than the speed of light
Riding on the highway, my way
Knowing it is right
Heading for disaster faster
Than the speed of light
Riding on the highway, my way

Knowing it is right
Heading for disaster faster
