

## Feel It Again

H.E.A.T

A flash of light and the moment is gone  
I look back trying to figure out why it went so wrong

The tears have started fallin cuz now I know its over  
What I thought would always last is now a part of the past

Feel it again, wanna feel it all come back to me  
I'm in a prison of love and I cant brake loose and live again

Dont get me wrong when I say this words  
Stay away from me cause you know, you know it hurts
