

# Hold Your Fire

H.E.A.T

Finally found what he was searching for after years alone  
Someone to hold and care for but now he's having second thoughts  
She was always into him, dreams away  
Convinced he's not mister right and now she's having second thoughts tonight

Maybe you should die  
Play for keeps

'Cause there is nothing bigger than us  
Is there anything bigger than us  
Holding on  
'Cause there is nothing bigger than love  
And when the going gets tough  
And you think about giving it up

Hold your fire  
Hold your fire

Hanging to foolish pride, they bide their time  
Thinking grass is greener on the other side  
What a lie that waters paradise tonight  
It's all a lie so look inside

'Cause there is nothing bigger than us  
Is there anything bigger than us  
Holding on  
'Cause there is nothing bigger than love  
And when the going gets tough  
And you think about giving it up

Hold your fire  
Hold your fire

Hold your fire baby

'Cause there is nothing bigger than love  
And the going gets tough  
And you think about giving it up

Hold your fire, fire  
Still hanging on  
Hold your fire, fire  
When the going gets tough  
Hold your fire, fire  
Love on the run  
Hold your fire, fire  
You've got your love on the run

Hold your fire, fire  
Still hanging on  
Hold your fire, fire  
When the going gets tough  
Hold your fire, fire  
Love on the run  
Hold your fire, fire  
You've got your love on the run

Hold your fire  
Fire
