

Nationwide

H.E.A.T

Bad decisions, running on dynamite
Under pressure but it's alright
Double vision, no, you can't hold me down
Television, look at you now

Are you high enough, high enough
Please, don't fall from the sky
High enough, high enough
Are you watching now

Do or die
You're the first in line
We could be now until forever
Nationwide, nationwide we are

Out of time
Let our worlds collide
We could be anything together
Nationwide, nationwide we are

Nationwide

No surrender, flying on broken wings
Great pretenders fall in between
Up the ante, running up against the odds
Coming up against the mob, I won't back down

Are you high enough, high enough
Please, don't fall from the sky
High enough, high enough
Are you watching now

Do or die
You're the first in line
We could be now until forever
Nationwide, nationwide we are

Out of time
Let our worlds collide
We could be anything together
Nationwide, nationwide we are

Nationwide

You and I
We're under pressure
Out of time, so lay it on the line
Nationwide until forever
Worlds collide, we are nationwide

Do or die
You're the first in line
We could be now until forever
Nationwide, nationwide we are

Out of time
Let our worlds collide

We could be anything together
Nationwide, nationwide we are

Nationwide, nationwide we are

Nationwide, nationwide
