

One of Us

H.E.A.T

One of us came to try
One of us say goodbye
And what have we to lose
Well, everything

One of us shut the door
One of us wanted more
Yet what have we to win
Well, everything

One of us, one of us
One of us, one of us
One to never die
One of us, one of us
One of us, one of us
One to never die

One of us, silent tears
One of us fighting fears
'Cause what do we have to lose
That cannot be replaced
Eternity is waiting

One of us, one of us
One of us, one of us
One to never die
One of us, one of us
One of us, one of us
One to never die

One of us, one of us

One of us, one of us
One of us, one of us
One to never die
One of us, one of us
One of us, one of us
One to never to never never never never die

One of us, one of us
One of us, one of us
One to never to never die
One of us, one of us
One of us, one of us
One to never die

One of us
