

## Rock Your Body

H.E.A.T

Here we begin, I need some skin on skin  
Your feline eyes, they are my kryptonite

You're not here to play nice  
You're the devil in disguise

Rock your body, rock your body, rock your body  
Rock your body, rock your body  
Get a little crazy  
Rock your body, rock your body, rock your body  
Rock your body, rock your body  
Get a little crazy

Just let me in, we'll take it sin by sin  
When we ignite, we're burning dynamite

You're not here to play nice  
You're the devil in disguise

Rock your body, rock your body, rock your body  
Rock your body, rock your body  
Get a little crazy  
Rock your body, rock your body, rock your body  
Rock your body, rock your body  
Get a little crazy

Rock your body

Oh what a night, oh what a night, oh what a night  
I'm feeling high I'm seeing diamonds in the sky  
Come on, I need it one more time

Rock your body, rock your body, rock your body  
Rock your body, rock your body  
Get a little crazy  
Rock your body, rock your body, rock your body  
Rock your body, rock your body  
Get a little crazy  
Rock your body, rock your body, rock your body  
Rock your body, rock your body  
Get a little crazy

Rock your body
