

# Stay

H.E.A.T

Closing my eyes you get inside  
Finding out what I need to win this fight  
To make the tables turn, and  
To make you stay the night

Cause my heart (my heart)  
Is breaking by the thought  
that you will leave me  
Tonight (tonight)  
And it makes me wonder,  
baby can you tell me

Is there any way I can make you stay  
So the night won't be so cold  
Is there anything I can do or say  
To make you stay

The look in my eyes  
tell you what I feel now  
Is there a way  
that I can keep this story for real  
And make you understand  
That I need you here tonight

Cause my heart (my heart)  
Is breaking by a thought  
that you will be reading me  
Tonight (tonight)  
And it makes me wonder,  
baby can you tell me

Is there any way I can make you stay  
So the night won't be so cold  
Is there anything I can do or say  
To make you stay, I will make you stay

I will give it all to you  
Do anything that you want me too  
And never surrender to the night

[Solo]

Is there any way I can make you stay  
So the night won't be so cold  
Is there anything I can do or say  
To make you stay
