

# We're Gonna Make It to the End

H.E.A.T

The sun goes down  
The city lights without a sound  
It's time to move  
And I'm coming for you

You gave me your heart  
Said I made you feel like a woman  
Then I tore it apart  
But I'll never be that man I used to be

When you lay your arms around me, baby  
And all is said and done  
I'll be there

We're gonna make it to the end  
We're gonna find our way again  
We've gotta be strong in what we believe in

We're gonna make it to the top  
And we'll never gonna stop  
We're gonna make it to the end  
Make it day by day

The tougher it gets the stronger we'll be  
If the sun ever sets and we're wrong  
We can say: we came and we played by the game  
And live to fight another day

When you lay your arms around me, baby  
And all is said and done  
I'll be there

We're gonna make it to the end  
We're gonna find our way again  
We've gotta be strong in what we believe in

We're gonna make it to the top  
And we'll never gonna stop  
We're gonna make it to the end

Oh, I'll be there

We're gonna make it to the end  
We're gonna find our way again  
We've gotta be strong in what we believe in

We're gonna make it to the top  
And we'll never gonna stop  
We're gonna make it to the end

We're gonna make it, yeah

(We're gonna make it to the end)  
(We're gonna find our way again)

(We're gonna make it to the top)  
(And we'll never gonna stop)

(We're gonna make it to the end)

We're gonna make it to the end  
We're gonna find our way again  
We've gotta be strong in what we believe in

We're gonna make it to the top  
And we'll never gonna stop  
We're gonna make it to the end
