

## Be On My Way

H.E.R.

If I'm giving you the cold shoulder  
That's closure, needed someone to hold  
But we both had our own motives  
Never told him that mine was to stay alone

And you don't belong to me  
So you don't have to let me go  
Doesn't always have to be something more

I'll be on my way  
I'll be on my way  
I'm no good if I stay  
So I'll be on my way, my way

I feel it for a moment  
In the moment, I feel it 'til it's gone  
I don't care if you want this  
Being honest, I don't know what I want

And you don't belong to me  
You were never mine before  
So it doesn't need to be something more  
I'll be on my way  
I'll be on my way  
I'm no good if I stay  
So I'll be on my way, my way

I'll be on my way  
I'll be on my way  
I'm no good if I stay  
So I'll be on my way, my way
