

# Closer To Me

H.E.R.

Ooh  
Mmm-mm  
Mmm

Been inconsistent for a minute  
Just listen for a moment  
Lay here, don't leave me (Leave me)  
Oh, I was hoping we could be closer  
Just hold me when it's shaky  
Say you still need me, yeah (Uh, yeah)

Sometimes I feel like you don't tell me you fuck with me enough (Oh)  
'Cause the whole time, you were giving away what should have been my love (Yeah, my love)

Always in lust  
I can't worry and trust you, baby  
I invested too much  
I've been healing, don't rush it, babe  
Can we make up  
For all the times we weren't touching, baby?  
I'll stop bringing it up  
Hoping we could be better for us  
Us  
Come closer to me, babe (Closer to me, babe)  
(Yeah, uh)

When I'm triggered, getting rid of all the bitterness and issues  
You don't believe me (Believe me, yeah)  
Ain't your responsibility to make me happy  
But you damn sure don't make it easy (Easy on me)

Sometimes you feel like ain't no room for mistakes, but I don't judge (I don't judge you, baby)  
I just need to know that it's always been different with us (Us, us)

Always in lust  
I can't worry and trust you, baby  
I invested too much  
I've been healing, don't rush it, babe  
Can we make up  
For all the times we weren't touching, baby?  
I'll stop bringing it up  
Hoping we could be better for us  
Us  
Come closer to me, babe (Closer to me, babe)  
(Yeah, uh)

I'll stop bringing it up  
If you love me, if you're in love  
Oh, I deserve that, I wanna love  
Yeah, I deserve that, that kinda love  
I know things get better with time  
It don't matter if we don't stop drawing the line  
I just need you to come closer to me, babe (Babe)  
Yeah, closer to me, babe, yeah

Feel you touch me, oh, [?], oh  
Hey  
Oh-oh
