

Do To Me

H.E.R.

What
What did you do to me
Way past infatuation
This connection that we make, make
And babe
Keeping me up till late
It's only 'cause I can't wait till
Till you come to my place, place

You say bye, baby, let me be wrong
On my mind like my favorite song
Promise me you won't leave me low
No, no, no, 'cause

All the things you do to me, do to me, do to me, do to me, yeah
All the things you do to me, do to me, do to me, do to me, yeah
I love the way you touch me, hold me, make me wanna sing (yeah)
Drive me crazy with everything you do to me, do to me, do to me
, do to me, yeah

Why
Why you make me so blind
Just looking in your eyes, you
Took my soul for a ride, ride
How
How you make me fall down
Tripping over the sound of
You loving me so loud, loud

You say bye, baby, let me be wrong
On my mind like my favorite song
Promise me you won't leave me alone
No, no, no, 'cause

All the things you do to me, do to me, do to me, do to me, yeah
All the things you do to me, do to me, do to me, do to me, yeah
I love the way you touch me, hold me, make me wanna sing (yeah)
Drive me crazy with everything you do to me, do to me, do to me
, do to me, yeah

None like you, where'd you come from?
Got me hooked, I can't get enough
None like you, where'd you come from?
Got me hooked on your love, love
