Going (Interlude)

H.E.R.

(Yeah, yeah)
Wish I could be where you are
I know the distance is far
I've been runnin', runnin' through your mind
Promise that I'm on a flight
Goin' to you right now
I don't have much time
With you tonight
I've been going
I've been going, I've been focused
Just be with me in the moment
Trust me I know how you feel right now
Baby that's just what it is right now
Just stay with me, right behind you
And I'm tryin' to, make the time to
Baby that's all I can give right now
Maybe that's just what it is right now
Yeah, yeah
Baby that's all I can give right now
Maybe that's just what it is right now
Baby that's all I can give right now
Maybe that's just what it is right now
I'm on the road
I've been in and out of timezones, I
Keep missin' your calls
You were sleepin' by the time I got home
I'm sorry you didn't get a chance to hear me
I've been going
