

## Let's Get Away

H.E.R.

It's just you and me, gloat in Italy  
We could go to France, they'll see us holding hands  
We could take a plane when leaving out the States  
And loving in Jamaica, or seeing the Himalayas

And I've got time to see you, come  
And knew you're keen to see me, ooh  
And I want you to take me to, to the moon, ooh

Hey baby, let's get away, let's go somewhere far, ooh  
Hey baby, let's get away, let's go somewhere far, ooh

Chilling on the beach, going to Belize  
Hold me in Brazil, baby you give me chills  
I just wanna please you, looking at your features  
Kissing me under water, on the islands of Fiji

And I've got time to see you, come  
And knew you're keen to see me, ooh  
And I need you to take me to, to the moon, ooh

Hey baby, let's get away, let's go somewhere far, ooh  
Hey baby, let's get away, let's go somewhere far, ooh  
Hey baby, let's get away, let's go somewhere far, ooh  
Hey baby, let's get away, let's go somewhere far, ooh

Hey baby, let's get away, let's go somewhere far, ooh  
Hey baby, let's get away, let's go somewhere far, ooh  
Hey baby, let's get away, let's go somewhere far, ooh  
Hey baby, let's get away, let's go somewhere far, ooh
