

Rather Be

H.E.R.

Musique progressive

Thoughts of you running through my head
As I lie awake in my bed
Know you want this, don't be afraid, babe
And now we're standing face to face
Baby, tell it to me now
Everything you dreamed about
Don't make sense to run around it ooh, it's now or never

Remember this night
Show me how you feel
Let me know it's real tonight, oh

There's nowhere I'd rather be than here with you, you, you
There's nowhere I'd rather be than here with you, you, you
There's no place I'd rather be

Feel the energy in this room
So high, you take me to the moon, oh yeah
Oh, what we got is something else
So fire, I can't help myself
Wanna see some fireworks
Let our love explode
So I'll rerun every episode
I'm in overload
Remember this night
Show me how you feel
Let me know it's real tonight, oh

There's nowhere I'd rather be than here with you, you, you
There's nowhere I'd rather be than here with you, you, you
There's no place I'd rather be

No place I'd rather be
There's nowhere I'd rather be than here with you, you, you
There's nowhere I'd rather be than here with you, you, you
There's no place I'd rather be
