

# Body Right

H-Town

We gon' do right, we gon' do wrong  
We'll take our time, play a couple of songs  
Sip a little wine, I got strawberries in the kitchen, yeah

'Cause you know that I  
Ain't got nothing but time  
Radio down, lights down low  
Every time we're alone

Girl, I want your body right next to me  
I just wanna love on all my lady  
I promise that I'd treat you right  
Just wanna be with you tonight

Girl, I want your body right next to me  
I just wanna love on all my lady  
I promise that I'd treat you right  
Just wanna be with you tonight

Let's party up, let's pull it up, let's drink it up  
Let's party up, let's pull it up, let's drink it up  
(Body right)

Some more red wine, you love to taste  
It's in your eyes, it's all over your face  
Said, let's go home, I got strawberries in the kitchen, oh yeah

'Cause you know that I  
Ain't got nothing but time  
Radio down, lights down low  
Every time we're alone

Girl, I want your body right next to me  
I just wanna love on all my lady  
I promise that I'll treat you right  
Just wanna be with you tonight

Girl, I want your body right next to me  
I just wanna love on all my lady  
I promise that I'll treat you right  
Just wanna be with you tonight

Let's party up, let's pull it up, let's drink it up  
Let's party up, let's pull it up, let's drink it up
