

# Lose Control

H-Town

I been fiending  
For your love, in need, your sexual healing  
Girl, your medicine feels so good  
All the time  
I been thinking  
How you gonna turn my body out tonight  
You masturbate my mind and make me feel right  
You believe my body and my mind, oh

That thing that you do to me really turns me on, yeah  
The way you taste my body, girl, makes my nature rise even more, more  
'Cause your

Your love has got me, I'm so addicted, I can't let go  
When your body's all over me  
There's something that I, I can't control  
Making me lose control  
Making me lose control  
Making me lose control

Boy, I can give you ten thousand reasons  
For how much I love you  
For one, you've been down for me  
Loving you honey, wanting your luck right now  
Love how you're focused now  
You're always on point, babe  
And I put that on everything  
So let's end this night slow and good, yeah

Stroking my hair and kissing all over me  
If I could flow you, I would  
You're making it love, yeah

The things that you do to me really turns me on  
The way you touch my body, boy, makes me want you more and more

Your love has got me, I'm so addicted, I can't let go  
When your body's all over me  
There's something that I, I can't control  
Making me lose control  
Making me lose control  
Making me lose control

Baby, I know what you need  
Baby, it's turning me on, baby  
Oh...  
And baby, I know what you need  
I like it, girl  
My love, baby

Your love has got me, I'm so addicted, I can't let go  
When your body's all over me  
There's something that I, I can't control  
Making me lose control  
Making me lose control  
Making me lose control  
All over my body, baby

Got me so addicted, baby  
It's time, we're gonna bring it down  
With color codes  
It's so good to me, baby
