Day by day, I've only waited for today, oh babe
The fourth season when the first snow falls

I'm born again with the cold temperature, the cool wind
Preparing alone the head, eyes, nose, mouth

Please know how I couldn't sleep
And was waiting for you all day

December has come again, on this cold winter day
You're as beautiful as the white world, will you stay with me?

I'll always be with you
Just like now, always be with you

Some day, oh babe

If I can talk and move like you

I wanna hold hands with you and walk on the cloudy snow
I wanna touch your head, eyes, nose and lips too

Please know how I couldn't sleep
And was waiting for you all day

December has come again, on this cold winter day
You're as beautiful as the white world, will you stay with me?

I'll always be with you
Just like now, always be with you

Even if I break down, even if I melt a little
I can't take my eyes off you
Let's be together forever

December has come again, on this dreamy, winter day
We're getting closer to each other, let's hold each other

I'll always be with you
I promise, always be with you
Just like this, with you
