

Planet Zero

Hactivist

Now great Britain's hooked on love island
But don't wanna show no love to the island
Plastic bottles get found by divers
Drastic time we are survivors
Ignored the sign they came back to bite us
Toxic waste it's a spreading virus
We won't silence, do the science
Everything digital analog and cyber
Its hybrid when I get hyper
Hit them hard hadron collider
Freedom fighter, see the light bruv
See a homeless man and give him a fiver
As we let nature take this course how
Long will we be around no one is sure

Homeless people on the streets
Plastic bottles in the sea
We call this humanity
I can't take it seriously
Homeless people on the street
Plastic bottles in the sea
We call this humanity
I can't take it seriously

It's all blown up
Gone so crazy I keep throwing up
We're all ill, getting iller
Spiritual virus straight up killer
Oil spiller, volcano erupter
So much guilt on my stomach it's ruptured
Interruption, I'm a schizophrenic bipole
But for years I've rolled
With a hectic pedigree flow
About to start letting enemies know
What's ahead of me, what's ahead of them
Break the cycle, stop pedaling
Got vomit in my mouth so I swallow it down
But I hate our destruction
Reurgh, we're all just sick
End of discussion

Bust my chin
Bust my chin
Cut my skin
Cut my skin
Take your knife and shove right in
Shove your knife in
I don't want
I do not want
To live, in this world
To live in this world
Bust my chin
Bust my chin
Take your knife and shove right in
Take your knife
I don't want
I do not want

To live

As we let nature take this course how long will we be around no one is sure
As we let nature take this course homeless plastic bottles just end up on the
shore

Homeless people on the streets
Plastic bottles in the sea
We call this humanity
I can't take it seriously
Homeless people on the street
Plastic bottles in the sea
We call this humanity
I can't take it seriously
