

# Gotta Be

Haddaway

Now sometimes, baby  
When the feeling shows  
Just don't be crazy and let it go  
I'll bring you flowers  
Kiss you for hours  
We'll go dancing and stay out all night long

You gotta be back with it  
Don't try to be cool or you will miss  
Just open up your heart  
And let it all slide in  
You gotta be back with it  
Don't try to be cool or you will miss  
Just open up your heart  
And let it all slide in  
Oh yeah

The lights are down  
And we're getting close  
Don't bite your finger and don't say no  
Don't hide your body  
We want to party  
She kissed me gently and then I took her home

You gotta be back with it  
Don't try to be cool or you will miss  
Just open up your heart  
And let it all slide in  
You gotta be back with it  
Don't try to be cool or you will miss  
Just open up your heart  
And let it all slide in  
Oh yeah

I don't want to find you later  
With another man hanging right in the town, yeah  
I don't want to find you later  
With another man hanging right in the town, yeah

Oh, back with it  
Don't try to be cool or you will miss  
Just open up your heart  
And let it all slide in  
You gotta be back with it  
Don't try to be cool or you will miss  
Just open up your heart  
And let it all slide in  
Oh yeah

You gotta be  
You wanna be  
Open your heart and let it in

You gotta be  
You wanna be  
Open your heart and let it in
