

Show Me Your Dreams

Haddaway

Show me your dreams

Confront your fears
From very near
Your love is just beginning to grow
We do what we have to

A man can say
A man can think
We share the problems of the world
Now we know
What we have to

Close your eyes
Show me your dreams
Hardly shared by everyone
Show me your dreams
Turn off the light
Show me your dreams
Tell me your every dream (Are you scared?)
Tell me your every need
Show me your dreams

You need no gold
To build a home
It can make you manage
You need a lovin'
Love and hope

A friend or soul
Would let you know
If you couldn't manage
You can't live alone

Close your eyes
Show me your dreams
Hardly shared by everyone
Show me your dreams
Turn off the light
Show me your dreams
Tell me your every dream (Are you scared?)
Tell me your every need
Show me your dreams

Show me your dreams

Tell me your every dream
Tell me your every need

Close your eyes
