

## Sing About Love

Haddaway

Everybody's gotta gotta have love  
Everybody's gotta gotta have love  
Everybody's gotta gotta have love  
Cause this feeling is in us and it starts above  
Put on your shoes, gotta get in the race  
Cause the way that we're going is a really sad pace  
Pick up the mick, hold it in your hand  
It's cold, it's bold, might think you're a man  
Listen to the words we don't even understand  
I'm not a preacher, nor a selling man  
It's a product at end now to you understand  
Big approach you wanna kill you man?  
Leave the truth, don't try to kill each other  
White or black, he's got to be your brother  
Day and night, you've got to have a look  
Before he goes you just have to take it

I've been told that things just last forever  
Form the top of the sky to the bottom of the water  
Isn't true you lost your brother?  
Don't try to hide this feeling you have inside  
Cause we all see your mood

How do we sing about love?  
Everybody's gotta gotta have love  
Cause this feeling is in all of us and it starts above  
How do we sing about love?  
How do we sing about love?

Everybody's gotta gotta have love  
Everybody's gotta gotta have love  
Everybody's gotta gotta have love  
Cause this feeling is in us and it starts above

Days like mine seen in the world all over  
Although you say you know me I'll bet you never will  
A track that you follow, a possible give in  
We can save the world  
We can save the world

How do we sing about love?  
Everybody's gotta gotta have love  
Cause this feeling is in all of us and it starts above  
How do we sing about love?  
How do we sing about love?

Everybody's gotta gotta have love  
Everybody's gotta gotta have love  
Everybody's gotta gotta have love  
Cause this feeling is in us and it starts above

God was talking to us through words  
But he never told man how it would go  
First came light, then tv  
Another day later, lots of babies  
Look at the colour, what do you see?  
White, black, green; it don't matter to me

ring, ring down talking to the phone  
Somebody's taking your life; nobody's home  
Look at the colour, what do you see?  
White, black, green; it don't matter to me  
ring, ring down talking to the phone  
Somebody's taking your life; nobody's home

How do we sing about love?  
Everybody's gotta gotta have love  
Cause this feeling is in all of us and it starts above  
How do we sing about love?  
How do we sing about love?

How do we sing about love?  
Everybody's gotta gotta have love  
Cause this feeling is in all of us and it starts above  
How do we sing about love?  
How do we sing about love?

How do we sing about love?  
Everybody's gotta gotta have love  
Cause this feeling is in all of us and it starts above  
How do we sing about love?  
How do we sing about love?
