

What She Did

Hadouken!

I took a call in the night
She explained to me
It turned out I had been right
I told her I already knew

Coz you know
What I know
And I know
What you did
Coz you know
What I know
And I know
What you, you did

What ya did
What ya done
What ya said before
Cut me high
Left me low
Now it's nevermore
Honestly how you feed me your lies
What did ya think?
I got feelings
Not feeling alright

In your head
You're not right

Her taxi's waiting
It's dark now, raining
My eyes were stone cold
I told her to leave now

Coz you know
What I know
And I know
What you did
Coz you know
What I know
And I know
What you, you did

What ya did
What ya done
What ya said before
Cut me high
Left me low
Now it's nevermore
Honestly how you feed me your lies
What did ya think?
I got feelings
Not feeling alright

In your head
You're not right
You're not right

What ya did
What ya done
What ya said before
Cut me high
Left me low
Now it's nevermore
Honestly how you feed me your lies
What did ya think?
I got feelings
Not feeling alright

In your head
When you slept
In his bed
Or was it
The first time
You're no lady
Of mine

You're not right
You're not right
