Comeback

HAERTS

I heard it all before
A million different times
The words won't let me go
They're always on my mind

They won't let me go
Wanna leave it in the past
Wanna open up my mind
Won't leave me alone
But I heard it all before
A million different times

You gotta wake it up
You're going to the top
You gotta open up the door
And when you come back baby
It's what they waited for
You gotta wake it up
You're going to the top
You gotta open up the door
And when you come back baby
It's what they waited for

Don't know why I never asked
If there was another way
So I'm running out of time
Now that every day's the same

And nobody knows
What I'm hearing in the dark
I can't show you in the light
Won't leave me alone
Say if you wanna be somebody
You gotta be somebody else

You gotta wake it up
You're going to the top
You gotta open up the door
And when you come back baby
It's what they waited for
You gotta wake it up
You're going to the top
You gotta open up the door
And when you come back baby
It's what they waited for

You gotta wake it up
You're going to the top
You gotta open up the door
And when you come back baby
It's what they waited for
You gotta wake it up
You're going to the top
You gotta open up the door
And when you come back baby
It's what they waited for
