

# Wait for Us

HAERTS

Didn't feel it  
Wasn't there at all  
Couldn't find a way to show what I was made of

Did you see me  
Did you care at all  
Did you find a way to let go what you dreamed of

I wanna wait for us  
I'd do whatever it takes  
And if it was enough  
Would you still lie awake

And would you wait for love  
One that's forever bound  
Like a line of light across the sky  
I'd come around

And I waited  
Til the time was gone  
Waited all along, now I can't shake the feeling

Would you be there  
If I turned around  
Would you say you found a world where we could make it

I wanna wait for us  
I'd do whatever it takes  
And if it was enough  
Would you still lie awake

And would you wait for love  
One that's forever bound  
Like a line of light across the sky  
I'd come around

I gave you all that I had  
More than I used to  
More than I'd dare to regret  
More than I'd choose to  
I gave you more than I recklessly should

I wanna wait for us  
I'd do whatever it takes  
And if it was enough  
Would you still lie awake

And would you wait for love  
One that's forever bound  
Like a line of light across the sky  
I'd come around

When I come around  
I wanna wait for love  
Tell me what would it take  
And if it was enough  
Would you still lie awake

When I come around  
And would you wait for love  
One that's forever bound  
Like a line of light across the sky  
I'd come around
