

City Lights

HAEVN

Waiting on the corner I first saw you
Rising of my heart, everyone will see
There's no wrong in all the things you told me
There's a wall for all the truth in me

Well it's time to leave the darkness, baby
It's time for us to know
Nights that we got lost, my baby
I've seen you grow

I can see in your eyes
City lightning
I just wanna see your eyes
In city lightning

There's a rising stronger than we know it
There's a hiding bigger than we see
Leave behind worry, like you told me
Lights are on the other side of fear

Now it's time to break the walls, my baby
Time for us to go
And all the nights that we got lost, my baby
I've seen us grow

I can see in your eyes
City lightning
I just wanna see your eyes
In city lightning

Run faster, I can't believe it
We are waiting for the night to fall
Run faster, don't leave it
We are waiting for the night to fall

There's a rising stronger than we know it
There's a hiding bigger than we see
