

Ever Know

HAEVN

There's a voice in your mind
It's spreading doubt
Spreading out
While the song in your heart
Is slowly fading out

Give it some time now
'Cause you're afraid
Or let fear subside now
We'll find a way

When you're out there, feeling lost
And you're so close to giving up
I know my love don't always show
But it's more than you'll ever know

Just look in my eyes

In the shade of the night
You and I
We'll entwine
Know the battles we've fought
Are only in your mind

So give it some time now
'Cause you're afraid
Or let your fear subside now
I know we'll find a way

When you're out there, feeling lost
And you're so close to giving up
I know my love don't always show
But it's more than you'll ever know

Just look in my eyes
Just look in my eyes

I know my love don't always show
But it's more than you'll ever know
I know my love don't always show
But it's more than you'll ever know

Just look in my eyes
Just look in my eyes
Just look in my eyes
