

Let Love Tear Me Down

HAEVN

All your burning hearts
Come and find me
I want deeper love
I wanna dive in
I am here to fall
So don't ignite me
I have seen it all
So come and blind me

I want your lovin'
I want you to be tonight
I wanna melt until our
Bodies' states are unified
So pull me closer
Let the rhythm take our life
Let's get together on the sharp edge of the knife

I am gonna let love tear me down
Let love tear me down
I'm gonna let love tear me down
I'm gonna let love tear me down
I'm gonna let love tear me

All my walls are down
Come and try me
I've left the dark
No more hiding
I'm waiting for your wave
I'm gonna find it
Floating with the sharks
So full and lively

I want your lovin'
I want you to be tonight
I wanna melt until our
Bodies' states are unified
So pull me closer
Let the rhythm take our life
Let's get together on the sharp edge of the knife

I am gonna let love tear me down
Let love tear me down
I'm gonna let love tear me down
I'm gonna let love tear me down
I'm gonna let love tear me down
