

Promise

HAEVN

God knows where I've been
Gray clouds come for me
God knows where I've been
You come for me
You come for me

God knows where I've been
Gray clouds come for me
They come for me
They come for me
God knows where I've been
Gray clouds come for me
They come for me
They come for me

How graceful it is
How graceful it is
How graceful it is
Oh, the promise that you made to me
How graceful it is
Oh, the promise that you made to me

Let go of your heart
Let go of your heart
Keep your promise
Keep your promise
Let go of your heart
Let go of your heart
Keep your promise
Keep your promise
