

Sinner Love

HAEVN

Somebody take me out of this hollow world
'Cause I'm drowning into a shadow surge
Someone I long for, somebody from a dream
Somebody full of love
Someone who's shining, lighting up the screen
This life is full of hope
Holding on
Oh I like to think it's alright
Sinner love
Oh I like to think it's alright
Somebody save me from this perfect world
But I keep searching in this shallow pool
Someone with a real heart
Someone with honesty
Somebody full of love
Someone with a real touch
Somebody [?]
'Cause life is full of faults
Holding on
Oh I like to think it's alright
Sinner love
Oh I like to think it's alright
Holding on
Looking for you but I found sinner love
Oh I like to think it's alright
Holding on
Holding on
Sinner love
Oh I like to think it's alright
Looking for you but I found
Sinner love
