

Welcome The Wind

HAEVN

Good days, they are ahead
Can feel it all coming back
It opens up your heart
As the morning makes room for a new start

Welcome the wind of golden days settling
You wake up to feel the days turn back to spring
You're always up in the past
Make room for all you never had

Old ways are in the past
Make peace with what you never had
Just open up your heart
As the morning makes room for a new start

Just wake me up
Just wake me up

New day, coming
New love
New day, coming
New love
New day, coming
New love
New day, coming
