Building Code

Hail the Sun

I used to wish that I was dead, but really, I yearned for love
And said some shit that I regret to my mother, she didn't give
up
Now it is hard to justify the way I am
When you love me, it is not a love I understand

I'm not sure I would change a thing
I'll always live and die by chaos

Face it or fall down, are you listening?
Face it and crawl out of a tragedy
If I die before I wake, just know your love was not in vain
Thanking you always

I remember when I got arrested, you were the call
And every lesson that you taught, I needed, I love you both
I hope I can one day be the way you've been
When you love me, it is not a love I comprehend

I'm not sure I would change a thing
I'll always live and die by chaos

Face it or fall down, are you listening?
Face it and crawl out of a tragedy
If I die before I wake, just know your love was not in vain
Thanking you always

(I'm thanking you always)
(I'm thanking you always)

I owe you a lot for the way that I'm not
And the way that I'll never be
I owe you a lot for the way that I'm not
And the way that I'll never be

I don't think I would change a thing
I want to live and die by chaos

Face it or fall down, are you listening?
Face it and crawl out of a tragedy
If I die before I wake, just know your love was not in vain
Thanking you always
