

Tithe

Hail the Sun

When they control the values of the youth
Then they can do what they want
Yeah, we all heard the tapes

There's no excuse for the crimes of the church
Keep it hidden with the children they hurt

Stay protected. Stick together.
We cannot let this get out
All our sermons are important
But business comes first

Casket cradle innocence
Scripture for my benefit

I am god
I am gone

Separate everything, everyone
(What did you see? Or didn't see? Keep your eyes shut)
Separate everything, everyone
(What did you see? Or didn't see? Keep your eyes shut)

Fuck the way you mistreat them
Fuck the reason you have a confessional
Fuck the way you mistreat them
Fuck the reason you have a confessional

Fight or flight escape (Escape)
Fight or flight escape it
Zion is their torture chamber

This always happens. Accusations.
We cannot let this get out
All our sermons are important
But business comes first

Casket cradle innocence
Scripture for my benefit
And if you think the heavens chose you to lead
Then you can do nothing wrong (Nothing wrong)
Nothing wrong

I am god
What's the cost?
Separate everything, everyone
This always happens and we can't let it get out!

Flight or fight, escape
Nothing is important as the business
He is one of us
Flight or fight, escape it
Flight or fight, escape
Nothing is important as the business
He is one of us
Flight or fight, escape it
Flight or fight, escape

Nothing is important as the business
