

# All The Cool Girls

Hailey Whitters

All the cool girls are out tonight  
Sunset and Vine, sparklin' wine  
Tangled up in blue, girls  
Smoke in their eyes  
Out with the boys, just one of the guys  
Look at 'em shine in the low of the lights  
All the cool girls  
Well, all the cool girls can't decide  
Who they wanna be tonight

Oh yeah, it's alright  
She's a star in a sky of her own  
Oh yeah, it's almost like she knows something we don't know  
Those places we don't go  
On a midsummer night dream  
The top down, Cadillac, blue jeans  
Oh yeah, it's alright when  
When she's lookin' at you  
Like all the cool girls do

All the cool girls are wakin' up  
A little sad, still a little drunk  
Breakin' their own rules, girls are makin' up  
A sweeter version of a come-and-go kind of love  
If they're gonna break, it's after goodbye  
They're just keepin' it cool, girls  
Well, all the cool girls got too much pride  
To let him see ya cry  
Don't you let him see you cry

Oh yeah, it's alright  
She's a star in a sky of her own  
Oh yeah, it's almost like she knows something we don't know  
Those places we don't go  
On a midsummer night dream  
The top down, Cadillac, blue jeans  
Oh yeah, it's alright when  
When she's lookin' at you  
Like all the cool girls do

Like all the cool girls do, ooh  
Yeah, just look at 'em shine  
In the low of the lights  
Yeah, just look at her shine  
Out there tonight

Oh yeah, it's alright  
She's a star in a sky of her own  
Oh yeah, it's almost like she knows something we don't know  
Those places we don't go  
On a midsummer night dream  
The top down, Cadillac, blue jeans  
Oh yeah, it's alright when  
When she's lookin' at you  
Like all the cool girls do
