

# Stop

HAIM

I know you and me  
Everything was supposed to be  
But I don't really want to  
I don't really understand how that has to be  
How can I breathe?  
How can I breathe?  
It's not, it's not that easy

I know that you want this to keep up going on  
But I don't really want to  
You just need to understand that this is all wrong  
Why can't you see?  
Why can't you please just stop?  
Just stay away from me

I came to say  
Stop  
I came to say  
Stop, stop  
I came to say  
Stop  
I came to say  
Stop, Stop  
I came to say  
Stop  
I came to say  
Stop, Stop  
I came to say  
Stop  
I came to say  
Stop, Stop

Cause you have some place to go  
And you have some place to show  
And I have some place to show  
And you have some place to show

Why can't things just stay, so they'll always be the same  
Cause I don't really want to  
I don't really understand how things have to change  
Why can't you see?  
Why can't you please just stop?  
Stop suffocating me

I know that you want this to keep up going on  
But I can't decide  
I can not decide  
I can not decide  
How can I breathe?  
How can I breathe?  
Just stop, just stay away from me

I came to say  
Stop  
I came to say  
Stop, stop  
I came to say

Stop  
I came to say  
Stop, Stop  
I came to say  
Stop  
I came to say  
Stop, Stop  
I came to say  
Stop  
I came to say  
Stop, Stop

That you have some place to go  
And I got some place to show  
And I have some place to go  
And you got some place to show
